INVITATION

We are pleased to invite you to the Fourth International Conference on Asia-Pacific Financial Markets (CAFM) held by the Korean Securities Association (KSA) on December 5, 2009. Four years ago, this conference was started to celebrate for Asia-Pacific Journal of Financial Studies (APJFS) to be selected for coverage in the Social Science Citation Index (SSCI) as of 2006, which has been published by the KSA since 1980. This is particularly meaningful as it is the first case that an Asian academic finance journal is listed in the SSCI. APJFS publishes only English-written articles bimonthly. Wiley-Blackwell, one of the world's foremost academic and professional publishers, has been chosen as a publication partner for the journal, and will publish the journal from the first issue of 2010.

In this fourth International CAFM, 44 papers will be presented in 12 sessions. These papers were selected among 121 papers submitted from 25 countries through blind peer-review process. As in the three previous conferences, the selected papers exhibit high standards of academic qualities and cover a wide range of important contemporary issues. Among these papers, eight papers will be awarded for the Excellent Papers.

This conference will provide a great opportunity for the participants to discuss and exchange perspectives on the ongoing important issues in the financial markets worldwide. Moreover, the conference will be an ideal venue for the participants who wish to network with the finance academics and the industry experts from various countries.

We would like to express our appreciation to all the sponsors who provide generous support for the success of the conference. Please enjoy the Fourth International CAFM and make sure you take some time to enjoy Korean culture.

Sincerely,

December, 2009

Dongcheol Kim, President of the KSA
